At TMC, we are proud to be a top-performing healthcare provider.

Texoma Medical Center has been dedicated to providing quality care, delivering innovative services, and exceeding expectations for over a half-century. At TMC, we make it a priority to seek out opportunities to add new programs, services and technology to meet the changing healthcare needs of our patients. Over the years, we’ve grown from a community hospital into a family of healthcare providers delivering a broad range of advanced medical services for the people of Texoma.

Our commitment to quality is demonstrated by the numerous awards and national accreditations that we have received in areas such as Chest Pain, Trauma, Stroke, Breast Care and Bariatrics. Most recently, TMC was named “Best Hospital” by the readers of the Herald Democrat for the tenth time.

Please use this directory as a guide to our ever-growing medical staff. You can always call Direct Doctors Plus®, our free physician referral service, at 903.416.DOCS (3627) to find the right doctor for you. For more information on TMC, visit our website at www.texomamedicalcenter.net.

All of the physicians and staff at Texoma Medical Center look forward to helping to keep you and your family healthy. We are dedicated to quality healthcare in North Texas and Southern Oklahoma.

Ron Seal
CEO/Managing Director
Texoma Medical Center
YOUR HEALTH

Texoma Medical Center offers major specialty services from open-heart surgery to diagnostic imaging to robotic surgery. Advanced resources such as certified trauma care support TMC’s role as a regional specialty center.

Since 1965, TMC has forged a special relationship with the people of North Texas and Southern Oklahoma. Texoma residents have come to depend on TMC to meet a spectrum of physical, mental and spiritual needs. TMC has responded with unique services to provide the kind of sophisticated, experienced care that once was available only in major metropolitan areas.

Texoma Medical Center is owned and operated by a subsidiary of Universal Health Services, Inc. (UHS), a King of Prussia, PA-based company that is one of the largest hospital management companies in the nation.

For more information about TMC and affiliated physicians, please visit us online at www.texomamedicalcenter.net.

TMC is licensed by the State of Texas and is accredited by The Joint Commission, a national body that monitors hospital operations and quality standards.
Allergists and immunologists are physicians specially trained to diagnose, treat and manage allergies, asthma and immunologic disorders including primary immunodeficiency disorders. These conditions range from the very common to the very rare, spanning all ages and encompassing various organ systems.

Dermatologists diagnose and treat diseases of the skin, hair, nails, and related tissues or structures. A dermatologist may also perform cosmetic services.
Ear, Nose and Throat specialists (ENTs), also called otolaryngologists, are physicians trained in the medical and surgical management and treatment of patients with disorders of the ear, nose and throat, and related structures of the head and neck. They deal with speech and hearing problems and provide allergy testing and management.

Subspecialty Internal Medicine
Certification American Board of Internal Medicine (Endocrinology and Metabolism), International Society of Clinical Densitometry
Memberships Fellow, Association of Clinical Endocrinology; American Diabetes Association; National Osteoporosis Foundation

ENDOCRINOLOGY

The specialty of family medicine combines the latest available medical technologies with a long tradition of caring and service. Today’s family medicine physician is educated and trained to care for the whole person, treating the majority of medical problems. These physicians provide primary care for men, women and children of all ages.

INTENSIVIST

Intensivists are board-certified physicians who provide special care for critically ill patients. They are skilled at identifying complications that may arise and at taking further action before conditions worsen. Intensivists oversee the many decisions that go into caring for the critically ill, and are dedicated to providing a high level of service to these patients who are in the Intensive Care Unit.

Neurologists diagnose and nonsurgically treat illnesses and diseases involving the nervous system, especially with respect to its structure, functions and abnormalities. These physicians treat problems involving the nerves, brain, spinal cord and muscles. Neurologists at TMC are involved with the management of the sleep lab and long-term pediatric and adult epilepsy monitoring.

Fellowship: University of Texas Southwestern Medical Center, Dallas, TX (Pain Medicine)

Palliative care is specialized medical care for people with serious illnesses. It focuses on providing patients with relief from the symptoms, pain, and stress of a serious illness. Palliative care treats serious and chronic illnesses such as cancer, kidney failure, Alzheimer’s, Parkinson’s and Amyotrophic Lateral Sclerosis (ALS), as well as cardiac conditions that include congestive heart failure (CHF) and chronic obstructive pulmonary disease (COPD).
